	Home Work:	Making a Template Engine based on Spring Boot and Thyme leaf								
	Today's Quiz									
	Next Quiz	Quiz was based on Chapter-1,2,3,5,6 at 04/07/2019								

Special Notice for Vendor Exam: It seems that most of the students do not study and practice at home, so it is strictly advised to study and practice regularly and take my help if you need.

1. You have already got

- Vendor Exam 1ZO-808 Syllabus and Special Preparation Book of Oracle Vendor Exam Team Head *Kathy Sierra*
- 1ZO-808 Vendor Exam Dump

2. You will study regularly as per my instructions and if there is any issue, you will solve asking me at any time. You will also follow Core Java Main book that we provided.

3. You will be asked to sit for Vendor Preparation Exam at every week before Final Vendor Exam.

Special Notice for Final Project: I think, except few students, most of the students do not practice at home. So it is highly encouraged to practice 7-10 hours daily at home.

1. You have to submit project proposal within 08/07/2019 including
 - a. Project Requirements
 - b. Project Prototype (HTML Design Template)
2. You have to complete following actions by the 13/07/2019
 - a. Project Requirements final
 - b. Use Case
 - c. Class Diagram
 - d. Complete Prototype using Thyme leaf template engine
